ANNEX II – III TECHNICAL SPECIFICATIONS & TECHNICAL OFFER	
Question 2:	<p><i>Regarding to Lot 1, Item 1.4.4:</i></p> <p>Original item 1.4.4: The length of the condoms shall not be less than 160 mm, nominal length shall be in the interval of 50-56 mm. The wall thickness of the condoms shall be 0.06±0.01 mm.</p> <p>Suggested item 1.4.4: The length of the condoms shall not be less than 160 mm, nominal width shall be in the interval. (your specification says: nominal length)</p>
Answer 2:	Please see the Corrigendum No:1 to Tender Dossier.
Question 3:	<p><i>Regarding to Lot 1, Item 1.5.3.1:</i></p> <p>Original item 1.5.3.1: Internal boxes in suitable number (60 internal boxes) should be placed in external boxes.</p> <p>Suggested item 1.5.3.1: Internal boxes in suitable number (60 internal boxes) or (51 internal boxes) should be placed in external boxes.</p>
Answer 3:	Please see the Corrigendum No:1 to Tender Dossier.
Question 4:	<p><i>Regarding to Lot 1, Item 1.5.3.5:</i></p> <p>Original item 1.5.3.5: The dimension of the boxes should be in accordance with the Euro pallet standards (80x120x15 cm) and they shouldn't brim over the pallets. Euro pallets should be as many as the storage amount of total number o boxes or the boxes should be delivered in pallets. External boxes should contain a total of 6.000 (six thousand) condoms in 60 (sixty) internal boxes from the same series.</p> <p>Suggested item 1.5.3.5: The dimension of the boxes should be in accordance with the Euro pallet standards (80x120x15 cm) and they shouldn't brim over the pallets. Euro pallets should be as many as the storage amount of total number o boxes or the boxes should be delivered in pallets. External boxes should contain a total of 6.000 (six thousand) condoms in 60 (sixty) or 5.100 (five thousand hundred) condoms in 51 (fiftyone) internal boxes from the same series.</p>
Answer 4:	Please see the Corrigendum No:1 to Tender Dossier.

ANNEX II – III TECHNICAL SPECIFICATIONS & TECHNICAL OFFER

<p>Question 5:</p>	<p><i>Regarding to Lot 1, Item 1.8:</i></p> <p>Original item 1.8: The date of expiry of the condoms should be at least five (3) years starting from their delivery. In case it is notified at least 6 (six) months before the expiry date of the delivered product, the contractor shall replace the products in the same amount and in compliance with the technical specifications within 3 months until 1 (one) month to the expiry date latest. The notification shall be made to the contractor company in written by the Public Health General Directorate. Expiry date shall be renewed until all the products are used up. Even if the contractor company stopped activity for any reason, the related manufacturer or exporter company is responsible for the replacement for expiry and any other reasons (collection, prohibition etc.) until the consumption.</p> <p>Suggested item 1.8: The date of expiry of the condoms should be at least three (3) years starting from their delivery. In case it is notified at least 6 (six) months before the expiry date of the delivered product, the contractor shall replace the products in the same amount and in compliance with the technical specifications within 3 months until 1 (one) month to the expiry date latest. The notification shall be made to the contractor company in written by the Public Health General Directorate. Expiry date shall be renewed until all the products are used up. Even if the contractor company stopped activity for any reason, the related manufacturer or exporter company is responsible for the replacement for expiry and any other reasons (collection, prohibition etc.) until the consumption.</p>
<p>Answer 5:</p>	<p>Please see the Corrigendum No: 1 to Tender Dossier.</p>
<p>Question 6:</p>	<p><i>Regarding to Lot 1, Item 1.8:</i></p> <p>In Technical Specifications Item 1.8, “The date of expiry of the condoms should be at least five (3) years starting from their delivery”. As this item has a type error, we would like to inform you that this item will be changed as "The date of expiry of the condoms should be at least five (5) years starting from their delivery”.</p>
<p>Answer 6:</p>	<p>Please see Answer 5</p>
<p>Question 7:</p>	<p><i>Regarding to Lot 1, Item 1.8:</i></p> <p>Original Article 1.8: The date of expiry of the condoms should be at least five (3) years starting from their delivery. In case it is notified at least 6 (six) months before the expiry date of the delivered product, the contractor shall replace the products in the same amount and in compliance with the technical specifications within 3 months until 1 (one) month to the expiry date latest. The notification shall be made to the contractor company in written by the Public Health General Directorate. Expiry date shall be renewed until all the products are used up. Even if the contractor company stopped activity for any reason, the related manufacturer or exporter company is responsible for the replacement for expiry and any other reasons (collection, prohibition etc.) until the consumption.</p> <p>-The date of expiry of the condoms should be at least three (3) years starting from their delivery.</p> <p>Reason for Change: In the technical specification, the contractor firm is requested to exchange the product with the new one as the expiration date of the products gets closer. However, the technical specifications 1.6.1, 1.6.2, and 1.6.3 specified in Article Republic of Turkey Ministry of Health issued free of charge, such as that sold condoms phrases will be asked to private production. If changes are made according to Article 1.8 of the technical specifications, the contractor company will not be able to use the condoms in any other area. We therefore request that Article 1.8 be amended as above.</p>
<p>Answer 7:</p>	<p>Please see Answer 5</p>
<p>Question 8:</p>	<p>We request inclusion of the below article in addition to the Technical Specifications.</p> <p>- All interior and exterior packaging of the box must be made in countries of EU origin.</p>
<p>Answer 8:</p>	<p>All specifications will be remain stated as Technical Specifications.</p>
