### SELECTION AND AWARD CRITERIA

#### 16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

**1) Economic and financial capacity of tenderer** (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years (2015, 2016 and 2017) for which accounts have been closed.

The selection criteria for each tenderer are as follows:

- The average annual turnover<sup>1</sup> of the tenderer in the last three years must be equal to or exceed the 50% of tenderer's financial offer.
- Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium this criterion must be fulfilled by each member.

For tenderers submitting tenders for more than one lot, the average annual turnover of the tenderer in the last three financial years must exceed the cumulative amount of the financial offers of all the lots for which the tenderer submitted tenders.

Companies that have been operational for less than three years will have to demonstrate an operational cash flow, which must exceed their financial proposal for the years in which they have been operational.

---

<sup>1</sup> For calculating annual turnovers in Euro, INFOREURO rates for **June** of each year shall be used. Please visit: [http://ec.europa.eu/budget/contracts\\_grants/info\\_contracts/inforeuro/index\\_en.cfm](http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/index_en.cfm)

**2) Professional capacity of tenderer** (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period, which will be taken into account will be the last 5 years from submission deadline.

- At least 3 staff members currently working for the tenderer in fields related to this contract;

**3) Technical capacity of tenderer** (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period, which will be taken into account, will be the last 5 years from submission deadline.

- The tenderer has delivered supplies under at most two (2) contracts with a budget of at least one-fourth ( $\frac{1}{4}$ ) of the financial proposal of the lot being tendered in supply of **vitamin and nutrition supplements for Lot 1 and Lot 2**
- The tenderer has delivered supplies under at most two (2) contracts with a budget of at least one-fourth ( $\frac{1}{4}$ ) of the financial proposal of the lot being tendered in supply of **reproductive health materials for Lot 3 and Lot 4**

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

Capacity-providing entities:

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links, which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.
